

Opening Remarks

On behalf of the Organizing Committee, it gives me great pleasure to welcome you to the International Conference on Process Engineering and Advanced Materials 2020 (ICPEAM2020), which will be held virtually from 13-15 July 2021. This is the 6th in a series of conferences organized under the World Engineering, Science and Technology Congress (ESTCON) umbrella that began in 2010.

ICPEAM2020 is a Chemical Engineering based conference with the theme of “Sustainable Future: The Inevitable Change”. The objective of the conference is to stimulate a broader discussion on the opportunity and challenges of current technological innovation, including Industrial Revolution 4.0 (IR 4.0), in achieving a sustainable future. I believe ICPEAM2020 will be the right platform for scientists, engineers, industrial experts, academicians, and scholars to disseminate the latest findings from their areas of expertise. The conference also provides great opportunities for participants to exchange new ideas and experiences, as well as to establish research and business relations with global partners for future research collaboration.

This year, we have accepted more than 100 papers for presentation at this conference. The accepted papers have been peer-reviewed by experts from multidisciplinary science and engineering and will be published in Scopus-indexed conference proceedings. In addition, selected papers will have the opportunity to be published as a journal paper (ISI/Scopus-indexed) under Special Issues. Furthermore, the organizing committee has invited three distinguished plenary speakers to share their experiences and knowledge. I would like to extend a special welcome to our plenary speakers, representing leading experts from academia and industry.

Last but not least, I would like to thank all participants, reviewers, sponsors and the organizing committee for their immense contribution towards the success of this conference. I wish you a fruitful and rewarding experience at ICPEAM2020.

Thank you.

Associate Professor Ir. Dr. Abdul Halim Shah Bin Maulud (PEng, MIEM, IntPE (MY), APEC Engineer)
Chairman, ICPEAM 2020
Chair, Department of Chemical Engineering,
Universiti Teknologi PETRONAS, Malaysia
